

## Henes Broon Orange T870 4WD

### Henes Broon T870 4WD - Your Child's First True SUV

Henes is the world's most advanced series of ride on cars. The Henes Broon T870 is the company's flagship 24 Volt Powered 4 Wheel Drive Off Road.

Advanced features unique to Henes are electronic power steering and variable acceleration with smooth take off and start and different modes of riding, independent suspension & Gas Filled shock absorbers front and back, leather bucket seat, 2.4Ghz RC Remote Control.

Also bright front and rear LED lamps as well as turn signals and brake lights just like a real car.

There is no other car on the market that can give your child the realistic feel of "driving" that the Henes Broon series brings. This Broon model has a boot and hood that open/close as well as functioning doors. True 4WD system allows this vehicle to go places where other ride on just cannot.
